

BE REALITY CAPTURE

Digitally Capture Your World, In Real Time.

Save Time, Reduce Costs,
Increase Accuracy.

Create a 3D model of the object, building, or space of your choosing. Just one laser scanner is capable of recording up to **2 million data points per second** which can then be used for rendering, modeling, reverse engineering, and more.

Whether you are an architect, engineer, or construction professional, we can create a solution tailored to your unique project.

Leica RTC360

Highly portable, highly automated, intuitive and designed for maximum productivity.

Leica BLK360

Use with the single push of a button. Capture full-color images overlaid on a high-accuracy point cloud.

Service Options

Scanning Team

Have a team of our experts come to your site and do the work for you. We can provide multiple deliverables such as point cloud data, vector data in applications such as Revit and AutoCAD, as well as 2D plans that represent accurate as-built conditions.

Please call **1.888.599.6611** to discuss your project and receive a free quote.

Equipment Rentals

Prices shown are for the rental of 1 machine in the specified time-frame. Please be sure to speak with one of our experts to determine the best rental solution for your project.

	Leica BLK360	Leica RTC360
Per Day	\$250.00	\$900.00
Per Week	\$850.00	\$3,000.00
Per Month	\$2,600.00	\$8,750.00

Equipment Sales

Leica BLK360	Leica RTC360
Starting at \$18,000.00	Starting at \$79,000.00
